

F-1346B

HEAVY DUTY TRIPLE PUSH BUTTON

Product Features

- **High-Quality Material:** The button control box is made of ABS material, offering resistance to aging, impact, water, dust, corrosion, high and low temperatures, and ensuring a long service life.
- **Waterproof:** Waterproof, oil-resistant, and dustproof. Design with a flexible, resilient rubber seal significantly enhances safety.
- **Precise Control:** The button control box handles 10A current and 230V+ voltage to safely operate electromagnetic starters, relays, and contactors.
- **Easy Installation:** Directly mounted by screws through the holes in the box
- **Wide Application:** This control switch is designed for harsh environments such as cement plants, muddy construction sites, and container terminals. It delivers stable performance even in demanding conditions, making it an ideal choice for diverse scenarios.

Technical Specifications

Model	F-1346B
Material	ABS Material,waterproof
Body Color	Grey White and Black
Button Color	Green and Red
Rated current	12V - 600V AC/DC
Contact Ports	NC, NO, COM
Ingress Protection	IP65
Dimension	135mm x 68mm x 50mm
